

# READY TO CHANGE YOUR WORLD

#### The HX235A LCR Crawler Excavator is part of Hyundai's new A-series:

a fresh generation of construction equipment that complies with the European stage V emission levels. But it goes much further than that! While fulfilling regulatory demands, Hyundai aimed for a groundbreaking level of customer satisfaction with maximum performance and productivity, better safety, more convenience and improved uptime management.

With a compact swing radius that lets you work safely and efficiently in tight spaces, this machine opens up a world of new possibilities where tiny efforts move mountains. It's time to experience the Hyundai Effect!

HYUNDAI HX235A LCR CRAWLER EXCAVATOR

HX235A LCR CRAWLER EXCAVATOR

#### **Productivity & Efficiency**

# COMPACT AND POWERFUL TO BOOST YOUR PROFITS

The HX235A LCR features the new A-series upper frame design, which significantly increases lifting capacity. This is combined with reduced tail swing and a new lifting mode, to make this powerful machine an excellent all-rounder for digging and moving heavy loads.

#### **Compact Radius**

The HX235A LCR (Compact Radius) features a short rear tail with a curved counterweight that rolls along the tracks with minimal overhang. This minimises outswing of the machine's rear end, giving operators peace of mind when working in space-restricted areas. Durability is also improved as the risk of the machine colliding with nearby walls or obstacles is greatly reduced.

#### Stable and powerful

Despite its compact design, the HX235A LCR is remarkably stable when lifting and transporting heavy objects or materials. The centred boom concept delivers superb lift capacity while the sturdy undercarriage provides stability and extra confidence when working on uneven surfaces.

#### Automatic engine shutdown

The engine shuts down automatically when the machine is at rest to cut fuel consumption and emissions. Different operating modes and idling times can be selected according to the work environment, further enhancing efficiency.

#### **EPFC (Electronic Pump Flow Control)**

EPFC improves fine control while also reducing fuel consumption. The system allows operators to tailor their machine for the job at hand, ensuring the optimal balance of power and precision.

#### Lifting mode

This work mode improves precision and lift capability through RPM reduction, power boost activation and enhanced pump flow control.

#### Engi

The HX235A LCR is equipped with an eco-friendly Cummins B6.7 engine that satisfies the strictest emissions requirements. It also delivers impressive power and performance with 881 Nm of peak torque (31% more than its predecessor) setting a new industry benchmark. Like all A-Series machines, this excavator features our all-in-one exhaust aftertreatment system. Removing the need for EGR has also enabled us to improve productivity through better fuel economy and longer service intervals.

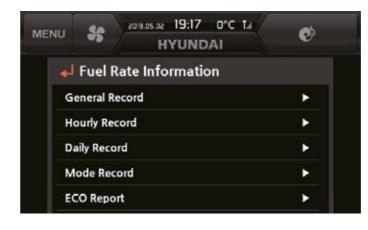

#### Eco Gauge

This feature helps operators to reduce emissions and running costs by displaying the engine workload and fuel-saving status.

#### Fuel rate information

Average and latest fuel consumption data are displayed to guide operators towards more economical operation.

#### **Eco Report**

The Eco Report feature makes it easy for operators to develop efficient working habits by displaying real-time information about machine performance.

#### **Durability**

# **READY FOR ACTION** AND BUILT TO LAST

You need to know that the investment you make today will help to sustain your business over the long term. That's why we prioritised reliability throughout the development of the HX235A LCR, from design and manufacturing to quality control. We improved engine reliability by removing the EGR and integrating exhaust after treatment with a simplified, single-module system that's easier to maintain. The upper and lower frame structures are reinforced for high load work, while the attachments have been rigorously tested for the roughest conditions. The overall aim is to minimise downtime and repairs so that you can stay on schedule, avoid unexpected costs and protect your profits.

#### **Bucket and attachments**

As well as rigorously testing and reinforcing all attachments for durability, we have improved the wear resistance of the bucket by using a new material.

#### Cooling module

HX A-Series machines are enhanced with a durable cooling module that has been stringently tested to protect productivity in tough working environments.

#### Cabin structure

The cabin structure is reinforced with integrally welded, low-stress, high-strength steel. It is certified to ISO 12117-2 (ROPS - Roll-over Protective Structures) and ISO 10262 Level 2 (FOPS - Falling Object Protective Structures) safety standards.

Hydraulic hoses

High-grade hoses with outstanding resistance to heat and pressure provide maximum durability, even in rough working conditions. HYUNDAI HX235A LCR CRAWLER EXCAVATOR

HX235A LCR STANLER EXCAVATOR

#### **Operator Comfort**

# A CABIN DESIGNED AROUND YOU

The cabin is designed to provide every operator with a comfortable working environment that boosts productivity and reduces fatigue. It includes a high-quality seat and a well thought-out layout that places the most important controls within easy reach. A range of options helps you to tailor the cabin to your needs, including a new audio system with radio, USB, AUX input and Bluetooth to keep you connected and entertained. The overall design places you right at the centre of the Hyundai Effect, with a world of convenience at your fingertips.

#### Key On Init Work Mode

This feature allows operators to save the attachment mode setting so that the machine is automatically in the right work mode when re-starting.

#### Owner Menu Editing (OME)

Menu functions can be set by the machine owner, who can also provide or restrict access for machine users by using a password to lock or unlock the list.

#### Combination speed setting system

This system allows operators to balance load sensitivity and boom priority against arm and swing. Select from five levels of load sensitivity to adjust initial flow rate for boom-up and arm-in operation according to attachment weight. Ten levels of boom priority can be selected to balance boom operation against arm and swing.

#### Wide touchscreen monitor

The HX235A LCR features an 8-inch display with a touchscreen and excellent legibility. All the indicators displaying machine status are centralised in one cluster to enable easy, efficient control.

#### Improved visibility and access

The open design of the cabin door gives the operator a clear, unimpeded view to the exterior. The door handle has also been redesigned for safer, more convenient access. The right-hand side of the machine also features a new design that gives the operator a better view of the bottom right-hand side of the excavator.

#### Front side air vent

An air vent at the front of the cabin keeps you cool as you work.

#### Proportional auxiliary hydraulic control

The optional proportional control system can be operated using sliders on the gear lever, offering the operator more efficient and convenient control over the speed of work tools, especially in jobs requiring high precision or full-speed operation. Alternatively, control of the system can be switched over to a foot pedal via the settings menu.

#### Fine swing control

Fine cushion swing control enables smooth movement at the beginning and end of swing operations. Fine free swing control reduces shaking of the weight during lifting.

#### Miracast connectivity

The Miracast system based on the operator's smartphone Wi-Fi allows the use of various smartphone features on the screen, including navigation, web surfing and music and video playback.

#### New audio system

The new audio system has a radio, USB-based MP3 player, integrated Bluetooth hands-free technology and a built-in microphone for convenient call handling. The radio has been repositioned to the right for easier reach to the controls.

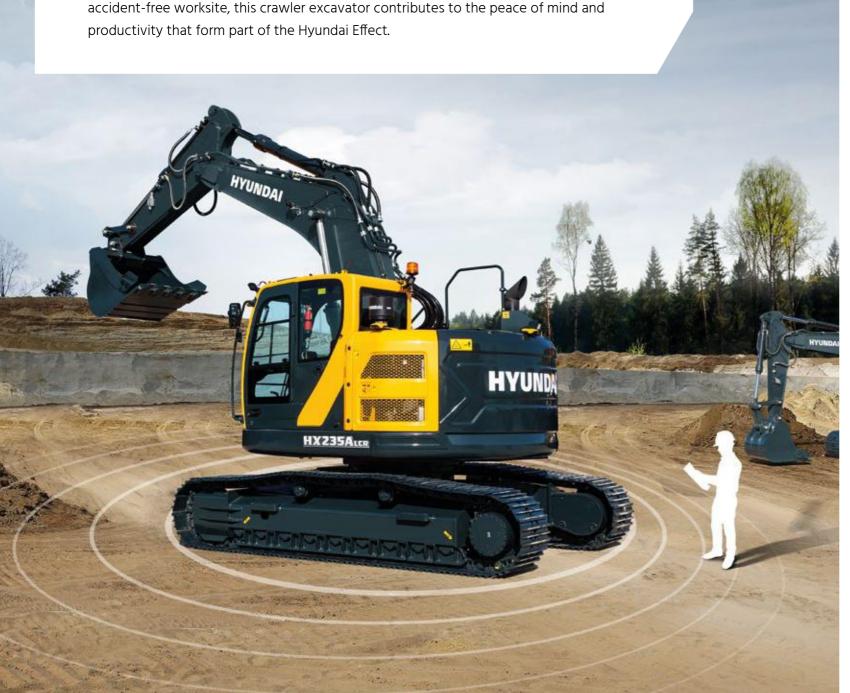

- I feel relaxed, alert and in full control."

"The ideal workplace

#### **Safety**

# PROTECTION FOR YOUR CO-WORKERS AND EQUIPMENT

Small details can make a huge difference when it comes to safety and security. The HX235A LCR offers all-round protection for you, your workmates and your machinery. The cabin allows optimal visibility, while optional Advanced Around View Monitoring (AAVM) gives you a clear overview of your surroundings. By helping to ensure an accident-free worksite, this crawler excavator contributes to the peace of mind and productivity that form part of the Hyundai Effect.

"The compact swing radius adds an extra layer of protection for the excavator and for workers and objects on site."

#### Seat belt warning alarm

Operators are reminded to fasten their seat belt by an audible and visible alarm.

#### Advanced Around View Monitoring (AAVM)

The AAVM camera system gives you a 360° overview of your immediate working environment. It also includes Intelligent Moving Object Detection (IMOD) technology that senses and warns you when people or objects come within five metres of the machine.

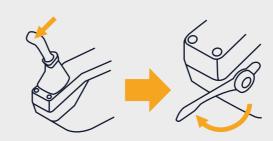

#### **Electronic swing parking system**

The swing brake is controlled by an electronic valve and control system to improve safety and efficiency.

#### Auto safety lock

The auto safety lock feature prevents unintentional ignition. When the lock is activated, the excavator is not controlled by the RCV lever.

HYUNDAI HX235A LCR CRAWLER EXCAVATOR 1X235A LCR CRAWLER EXCAVATOR

#### **Serviceability & Connectivity**

# ADVANCED DIAGNOSTICS AND SERVICING SUPPORT

The peace of mind that comes with quick, low-effort servicing is also part of the Hyundai Effect. The HX235A LCR is designed to make maintenance as convenient as possible. All components and materials have been optimised to ensure a long, troublefree life. Hyundai's innovative Hi MATE telematics system enables full monitoring of machine activity and performance. Maximum connectivity is integrated to help you create a smart construction site and protect your profitability. "The new technologies make it easy to keep track of servicing tasks and get extra support if I need it."

#### HCE Diagnostic Tools (HCE-DT) app

Technicians can connect wirelessly to the machine on-site using a smartphone or laptop. A quick check can be performed to diagnose the root cause of a failure or to troubleshoot for fault codes. The HCE-DT app retrieves machine and engine data from a combined cloud-based platform to run a failure analysis in real-time. Combined with ECD, it increases first-visit fix rates.

# 200% improved

Mobile Fleet app

Hyundai's new Mobile Fleet app

provides all the information you

need to run your fleet efficiently and

economically. Based on telematics,

this advanced solution uses simple

graphics and key performance data

for smart fleet management.

#### Extended fuel filter lifetime

The fuel filter service interval has been increased from 500 hours to 1,000 hours. DPF cleaning is only required if alerted by a fault indication, eliminating the need for regular ash cleaning intervals.

Increase productivity

#### Upgraded urea tank cover

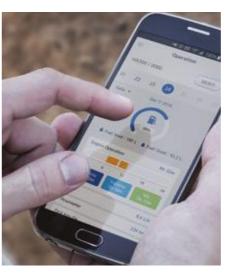

The urea tank cover has been updated to a fully open type to make filling more convenient.

#### HIMATE

# Boost efficiency and performance

For maximum convenience and security, the HX235A LCR features Hyundai's exclusive Hi MATE remote fleet management system, which uses mobile data technology to provide the highest level of service and support. You can monitor your equipment wherever you are via a dedicated website or mobile app, with access to working parameters like total engine hours, machine utilisation, actual performed working hours and fuel consumption and machine location.

#### **ECD (Engine Connected Diagnostics)**

ECD provides troubleshooting advice as well as tailored servicing and parts support from Cummins Quick Serve. Service technicians are supported with remote diagnostics reports allowing them to prepare for site visits and bring the right tools.

#### $\bigvee$

#### Improve security

Protect your equipment from theft or unauthorised usage. Hi MATE's geofencing alerts notify you automatically when a machine leaves a predetermined zone. HYUNDAI HX235A LCR CRAWLER EXCAVATOR 15.

#### **Parts & Warranties**

# HYUNDAI GENUINE PARTS AND WARRANTIES: THE BEST WAY TO PROTECT YOUR INVESTMENT

Hyundai Genuine parts, accessories and warranty programmes are specially designed to keep your machine covered. They increase uptime and maintain the performance, comfort, and convenience that are built into your equipment.

#### **Fuel filters**

Hyundai fuel filters provide the right degree of filtration to keep your engine clean. They are designed to meet and exceed the engine manufacturer's prerequisites for water separation and dirt filtration, prolonging the life of your engine.

#### Hyundai Genuine parts

Hyundai Genuine parts have the same design as those installed when your machine left the factory. They are subjected to rigorous quality inspections and tests to make sure they meet Hyundai's strict requirements for quality and durability. As well as minimising downtime, this helps to ensure peak performance on every task.

# A network you can rely on

Hyundai Construction Equipment Europe prioritises quick, reliable intervention to keep your equipment running reliably. In the 13,000 m² warehouse, Hyundai covers over 96% of all Genuine Parts. With one of Europe's most advanced automated warehousing systems, we are able to maintain availability and efficient delivery of all our Genuine Parts. Moreover, we guarantee a 24-hour delivery service across our European dealer network.

#### Aftermarket kits

You can order Hyundai aftermarket kits via your dealer. This AAVM system for example, improves safety in and around your working environment at all times.

#### Hyundai warranties

Our warranties are also designed to give you the cover you need to build your business with confidence and peace of mind.

#### **Standard warranties**

We offer standard warranty coverage for all crawler excavators. Next to this standard coverage, optional and extended warranty periods are available, so you can benefit from full warranty coverage for longer, and even over the full lifetime of the machines. Please discuss the optimal solution for your needs with your local Hyundai dealer.

#### **Extended warranties**

Our extended warranties help you maintain full control over your operating costs. If you combine an extended warranty programme with a tailored maintenance contract, you can completely avoid unexpected costs.

**Durability** 

#### Walk-around

HX235A LCR

#### **Productivity & Efficiency**

- High-performance, EGR-free engine
- Eco Report
- Electronic Pump Flow Control (EPFC)
- Lifting mode
- Fuel Rate Information
- Eco Gauge
- Automatic engine shutdown

- Hi MATE telematics system
- · Upgraded urea tank cover

#### **Operator Comfort**

Key On Init Work Mode

New audio system

• Wi-Fi Direct with smartphone (Miracast)

Proportional auxiliary hydraulic system

 2-way proportional RCV & pedal control selection

• Fine (cushion/free) swing Control

- 8" touchscreen monitor
- Owner Menu Editing (OME)
- · Combination speed system

#### Safety

• Electronic swing parking brake

AAVM camera system

Seat belt warning alarm

Wide steps

• 2x longer-lasting fuel filter (1,000 hrs)

- Mobile Fleet app
- Connected diagnostics

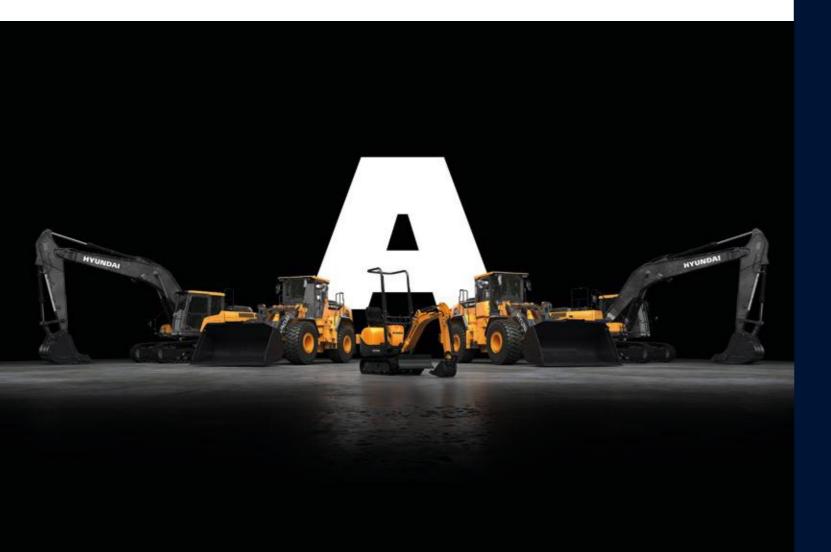

HYUNDAI HX235A LCR CRAWLER EXCAVATOR

# READY TO CHANGE YOUR WORLD

Hyundai's crawler excavators are designed to create better conditions for operators and deliver the ultimate ownership experience. Every detail is carefully fine-tuned to match your needs in the field, including better safety and comfort, higher productivity, maximum uptime and easy servicing. It's all part of the Hyundai Effect.

- 1. Lifting capacity is based on ISO 10567.
- 2. Lifting capacity of HX Series does not exceed 75% of tipping load with the machine on firm, level ground or 87% of full hydraulic capacity.
- 3. The Lift-point is bucket pivot mounting pin on the arm (without bucket mass).
- 4. (\*) indicates load limited by hydraulic capacity.

- 1. Lifting capacity is based on ISO 10567.
- 2. Lifting capacity of HX Series does not exceed 75% of tipping load with the machine on firm, level ground or 87% of full hydraulic capacity.
- 3. The Lift-point is bucket pivot mounting pin on the arm (without bucket mass).
- 4. (\*) indicates load limited by hydraulic capacity.

- 2. Lifting capacity of HX Series does not exceed 75% of tipping load with the machine on firm, level ground or 87% of full hydraulic capacity.
- 3. The Lift-point is bucket pivot mounting pin on the arm (without bucket mass).
- 4. (\*) indicates load limited by hydraulic capacity.

- 1. Lifting capacity is based on ISO 10567.
- 2. Lifting capacity of HX Series does not exceed 75% of tipping load with the machine on firm, level ground or 87% of full hydraulic capacity.
- 3. The Lift-point is bucket pivot mounting pin on the arm (without bucket mass).
- 4. (\*) indicates load limited by hydraulic capacity.

- Heavy duty bucket
- Rock-Heavy duty bucket
- Slope finishing bucket

- Applicable for materials with density of 2,100 kgf/m³ (3,500 lbf/yd³) or less
- O Applicable for materials with density of 1,800 kgf/m³ (3,000 lbf/yd³) or less
- Applicable for materials with density of 1,500 kgf/m³ (2,500 lbf/yd³) or less
- ▲ Applicable for materials with density of 1,200 kgf/m3³ (2,000 lbf/yd³) or less

#### ATTACHMENT

Booms and arms are welded with a low-stress, full-box section design.

5.68 m (18'8") Mono, 5.65 m (18'6") 2 Piece Booms and 2.0 m (6'7"), 2.4 m (7'10"), 2.92 m (9'7") Arms are available.
